## RET Uright ULTIMATE CONVEYOR RIGHT-HANDED DESIGN

**CONVEYOR**  
**RIGHT-HANDED**  
**DESIGN**

### Description

This changes the conveyor to a right-handed design. This allows the right two vehicle tires to be pull through the car wash. PECO has to change the guide rail on the entrance and exit conveyor section. Also, the manual arm on the roller up mechanism has to be reversed to the right side on the entrance section.

This is common in countries like the United Kingdom & Australia & Cypress and so on.
