GRATE-FIBERGLASS, 1-1/2" SQUARE (3'x10')(W/GRIT)(COLOR?)

Description

These **fiberglass grates** are used next to the conveyor. They come in two different colors; **Yellow & Gray**. These grates are made to be cut to size at the car wash site. This will allow for a custom fit in your conveyor trench. These grates are lighter than steel, which makes access to the conveyor and trench easier and safer.
