### PE806 WHEEL TRACKER SET SS

### Description

The PE806 Wheel Tracker Set is designed for superior cleaning coverage of the hubcap wheels. This high-pressure water spray (capable of 1000psi) is directed through 6 rotating zero degree nozzles; three per side. The unit has an independent head assembly, which follows each tire independently as it passes. These heads are activated through one independent air trip treadles. Each head assembly will direct the high pressure oscillating nozzles at three different angles, to insure maximum coverage of the hubcap wheel. Each head assembly will rotate on a stainless steel rod. This unit is constructed with 304 Stainless Steel Structure. This unit offers you long life, strength and attractiveness.

# Specifications

## Pneumatic Control Requirements

| Total System Pneumatic Control Requirements: |     |                    |
|----------------------------------------------|-----|--------------------|
| 0.01                                         | CFM |                    |
| 0.00                                         | 2W1 | 2-Way Valve        |
| 0.00                                         | 3W1 | 3-Way Valve        |
| 1.00                                         | 4W1 | 4-Way Valve        |
| 0.00                                         | 4WM | 4-Way Valve Manual |

## Water Requirements

| Total System WATER Requirements: |              |                     |
|----------------------------------|--------------|---------------------|
| 0.00                             | GPM @ 40psi  | Reclaim Water       |
| 18.00                            | GPM @ 40psi  | Fresh Water         |
| 0.00                             | GPM          | Soft Water          |
| 0.00                             | GPM          | Hot Water           |
| 0.00                             | GPM          | RO Water            |
| 0.00                             | GPM @ 850psi | Reclaim Water       |
| 18.00                            | GPM @ 850psi | High Pressure Water |

# PE806 WHEEL TRACKER SET

## Equipment Specification

### Technical Data: PE806

**Construction:** Stainless Steel Structure

**Tunnel Length:** 12" (0.30 m)

**Tunnel Height:** 24" (0.61 m)

**Tunnel Width:** 13'-6" (4.11 m)

**Vehicle Height Clearance:** n/a

**Water Output:** 18 gpm @ 850 psi (68.14 lpm @ 5.86 MPa) Both Manifolds Total

**Electrical Requirements:** n/a

**Hydraulic Requirements:** n/a

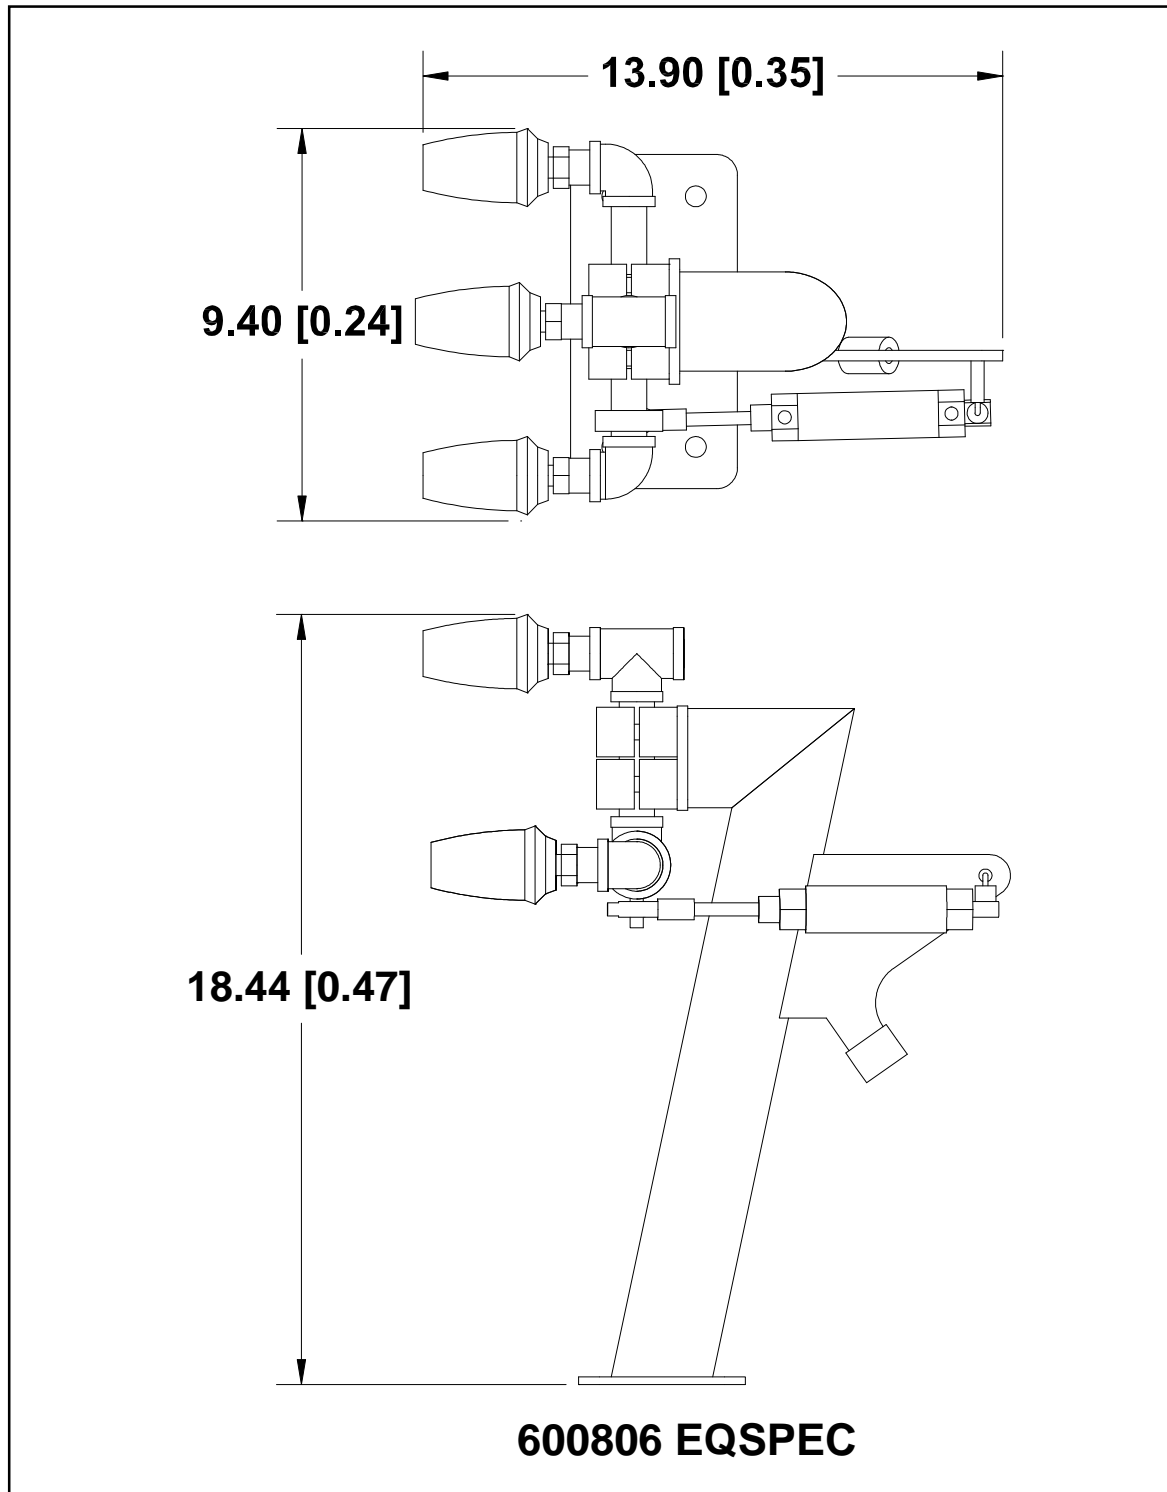

**Air Requirements:** 0.5 cfm @ 50 psi (14.1 lpm @ 0.34 MPa)

**Shipping Weight:** 100 lbs. (46 kg)

**Controller Function:** 2 (Pump On / Flip)
